

GENERAL AGREEMENT WITH GAS TURBINE OEM

ANSALDO ENERGIA

EnergyFog Systems has been selected by Ansaldo Energia (AEN) to supply high performance fogging units to their current range of Gas Turbines:

GT Model	MW
V64.3A	70
V94.2	160
V94.3A	260-280

This general agreement applies to retrofit units already in operation, as well as new gas turbines supplied by AEN.

As of June 2011, AEN and its customers have ordered units for seven V94.3A Class Gas Turbines to EnergyFog Systems:

- o Eight fogging units as a retrofit for four Enipower stations , i.e. **Ferrera Erbognone , Ferrara , Mantova and Ravenna** stations in Italy,
- o Four fogging units for **Escatron and Algesiras** station (new plants) in Spain,
- o Two fogging units for **Vado Ligure** station (new plant) in Italy,

Ferrera Erbognone

Escatron

Vado Ligure
